

The White Earth Autism Association continues to hold parent support group meetings the third Tuesday of each month at the White Earth Early Childhood building (Child Care/Head Start) from 5:30 to 6:30. We are looking for ideas to help us attract more parents to our association. We have had a parent night featuring Music Therapy and would welcome other ideas.

The association has lots of very good books (donated by BRIC Bemidji Regional Interdistrict Council) on autism for parents and professionals available for check out. We also ordered more weighted blankets; we have had requests for and have given four weighted blankets to parents. Contact Barb Fabre, Mary Leff or Gina Boudreau at 218-983-3285.
